

CLASSIC SOLUTION:

01 Classic Contract Manufacturing –

Production According to Drawing or 3D Models

Material Selection:

- Steel (Structural Steel, Tempered Steel, Stainless Steel, Cast Iron, Etc.)
- Non-Ferrous Metals (Bronze, Copper, Brass, Etc.)
- Plastics (POM, PAS, PMMA, PU, Etc.)

According to customer requirements, including material certificates.

02 Service 3D Measuring

- Component and Assembly Measurement
- Creation of Dimension Report
- Solution-Oriented Suggestions as Required

SPECIAL SOLUTION:

03 Reverse Engineering

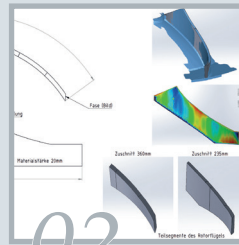

- Measurement According to prototype/worn component
- Assessment + Material Testing
- Reconstruction + Optimizations According to Proposal or Customer Requirements
- Drawing Derivation
- Production After Drawing Approval
- Quality Control
- Shipping

04 Small Parts Construction including Project Management

- Construction of small construction groups including project management
- Constructive solutions including modeling of a solution for problems in existing plant systems
- Assessment and initial estimate of the effort
- Measurement including 3D measurement (radius of 2.5m, accuracy 0.045mm)
- Development of a solution concept
- Constructive implementation in the CAD system
- Drawing Derivation
- Approval for production of drawings by customers
- Production of Components
- Delivery, Shipping

FOCUS ON PRECISION:

Our machining center for customized solutions!

We are the Technical Service Gratkorn and use innovative technologies to redefine maintenance. Our flexibility in the procurement of spare parts enables us to reconstruct defective components and manufacture them in our state-of-the-art machinery.

YOUR ADVANTAGES:

This makes us your perfect partner...

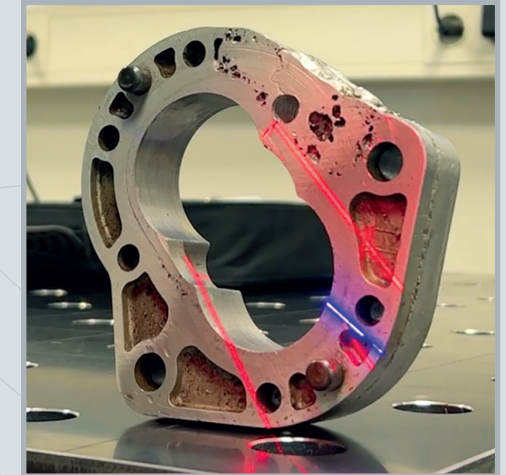

Individual Production

Our production is tailored to your needs. We produce components precisely and efficiently according to samples, 3D models or drawings.

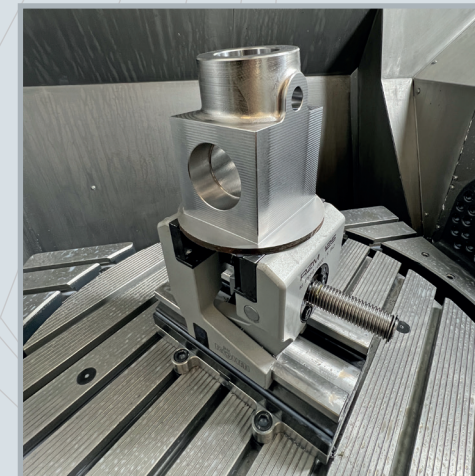

Transparent Billing

Billing is either flat rate or based on effort. The focus is on transparency and fair conditions.

Flexible Processing

We offer flexible and unbureaucratic processing to meet the individual requirements of our customers.

Industry Expertise

With over 40 years of experience in maintaining the paper industry, we have comprehensive industry expertise that is reflected in every aspect of our services.
